

# Growing Grant Application

*Hoping to partner with you to bring landscaping to your project in a meaningful way.*

As a fourth-generation landscaping and garden center business, Dennis' 7 Dees continues to grow and service our neighbors in the Portland metro area, as well as on the north coast, since 1956.

Along with our passion for plants, our core values consist of community, education, planet and safety. These values are part of our deep and long-standing connection with the community. We look forward to exploring the new ways we can continue to support and grow that relationship. This is why we've established the 'Growing Grant'. We are dedicated to supporting our community and helping it grow along with us. This grant is available for non-profit organizations with a project that focus on education and/or food systems/security.

**What is your organization's name?**

**What is your organization's mission statement?**

**Number of people in your organization**
